

## Information Security Management System

### STATEMENT

The management of ISG Technology Ltd. declares its commitment to protect the confidentiality, integrity and availability of all information assets within the organisation in order to improve competitiveness, profitability, level of the provided services and to ensure compliance with legal and regulatory requirements.

To fulfill this commitment and in compliance with the strategic objectives of the organisation, the management of ISG makes the decision to establish, implement, maintain, monitor, review and improve the documented information security management system (ISMS) according to the requirements of the international standard ISO/IEC 27001:2013, ensure secure sharing of information, conduct of operations with information, and reduce the risks associated with information to acceptable levels.

The current announcement is going to be brought to the attention of all ISG employees.
