

## Information Security Statement

ISG technology Ltd is a company with a strong belief in the principles of security, providing high-tech commercial solutions, including Design, Deployment, Installation and Management of IT and Network Services. Our aim is to meet customer requirements and ensure information security, and customer satisfaction over a long-term period.

The management of ISG technology declares its commitment to protect the confidentiality, integrity and availability of all information assets within the organization in order to improve competitiveness, profitability, level of the provided services and to ensure compliance with legal, regulatory and customer requirements.

To fulfill this commitment and in compliance with the strategic objectives of the organization, the management of ISG technology established processes to implement, maintain, monitor, review and improve the documented information security management system (ISMS) according to the requirements of the international standard ISO/IEC 27001:2013, ensure secure sharing of information, conduct of operations with information, and reduce the risks associated with information to acceptable levels. The risk based approach is adopted as basic for the continuous improvement of internal and external processes.

The organisation is committed to continuous improvement and employs specific applications and software to analyse and report data to ensure the organisation meets its security objectives. The ISG organisation chart defines the overall quality structure and responsibilities

It is our responsibility to ensure that this policy is implemented and that all orders, contracts and legal requirements are efficiently processed and satisfied. To achieve these objectives the responsibility for the Information Security Management System is shared by the directors and managers who ensure that all personnel are fully conversant with the company policy through an on-going training programme, and to review the system regularly to establish its effectiveness.

It is the responsibility of all staff to ensure they understand this policy, implement its procedures and maintain them. The policy is committed to providing a framework for establishing and reviewing information security objectives.

The current announcement is brought to the attention of all ISG technology employees.

Andrew Webb MIQA C.Q.P.
